Peterson Europe
Vehicle lighting solutions
by design, by technology, by quality

Cookie Policy

How we use cookies

A cookie is a small file which asks permission to be placed on your computer's hard drive. Once you agree, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site. Cookies allow web applications to respond to you as an individual. The web application can tailor its operations to your needs, likes and dislikes by gathering and remembering information about your preferences.

We use traffic log cookies to identify which pages are being used. This helps us analyse data about web page traffic and improve our website in order to tailor it to customer needs. We only use this information for statistical analysis purposes and then the data is removed from the system.

Overall, cookies help us provide you with a better website, by enabling us to monitor which pages you find useful and which you do not. A cookie in no way gives us access to your computer or any personally identifiable information about you, other than the data you choose to share with us.

You can use your browser settings to restrict or block cookies set by our website. If you decide you wish to do this simply use the help function in your browser. If you do decide to restrict or block cookies this may impact the functionality of our website. For a more comprehensive guide visit www.aboutcookies.org. If you want to delete cookies on a mobile phone refer to your handset manual.
